atlas CARBON DAVITS

Atlas carbon davits are available as standard with 1200mm, 1600mm and now 2000mm reach and various heights. Choose from manual or electric winch in a spectrum of colours.

The elegantly styled lines of the atlas will complement the aesthetics of any yacht, power or sail, whilst its weight won't compromise performance. Atlas carbon davits have also been installed in waterfront locations as well as used in a variety of military and commercial applications.

CUSTOMISED

The power of the Atlas

- Very portable:Weights from 18kg
- Rotates through 360 degrees
- Quick and simple to erect and use
- Only visible when in use, unlike its fixed counterparts
- Multiple deck sockets allow a single atlas to be positioned around the yacht
- Easily stowed
- Each unit proof tested and supplied with certification
- CE approved
- When removed, deck sockets are sealed with watertight caps
- Mets - Dame award winner
